Dear Mr. Murphy,

The work,carried out by your company, on the difficult repair to the plumbing, has been completed and we wish to acknowledge the ability and thoroughness of your people to work within our home without causing major disruption.

We were very apprehensive about the impact on our lives of the work you had to do and we thank you for the good result.

We will happily provide any of your prospective clients with a recommendation for your company.

Yours faithfully

for Peter & Nina Hine/
